

Front Porch Productions presents ...

The Sonflowerz ... Available for Booking in Canada

To book the Sonflowerz call Richard today: info@frontporchrecords.com ph (403)315-2199

A New CD in 2008 ...

The new CD will feature lead vocals and acoustic guitar by Elissa, bass and background vocals by Becca, and instrumentation by some of Nashville's top session players.

"My greatest joy for this next CD is that I am given the opportunity once again to write and sing about the impression God has made on my life," Elissa added.

"These songs convey the gratitude of being loved by God and the desire to share that love with the world."

Produced by Dove Award-winning songwriter and producer Don Koch. "When I first met The Sonflowerz, I was taken back by how transparent their hearts are," Koch said. "I could easily see Christ in them. Their passion for family, for ministry, and their love for singing come shining through. But there is more. They are really talented. It is an honor and privilege to be working with them."

The Sonflowerz are very gifted with musical talent. . Their sound is excellent. Not only are they talented, but the Sonflowerz have a pure heart for their ministry. It is obvious that the call of ministry is on these young ladies. I am sure they can fulfill the need for worship and concert fun in any event, because they have an attitude of gratefulness to the Lord which shines when they perform. - **Lisa Christopherson**, Timberline Church , Fort Collins, Colorado

"We were privileged to have this group of girls here to lead our students into the presence of God through some awesome music. But their ministry didn't stop there. They spent time with our young people, they talked to them, they listened to them, they prayed with them and for them. So often, musical talent we bring in as a church is only that - talent. The Sonflowerz relied on God's gift of music that He has given them and they brought us into His presence with all they did. " - **Pastor Joe Ganahl**, Morningside Church of God, Brookings, South

Since 1999, The Sonflowerz has traveled throughout the U.S. and U.K. with their original modern worship music. Led by guitarist, lead vocalist, and songwriter, Elissa Leander and sister Becca Leander (vocals/bass/keyboard/guitar), The Sonflowerz music ministry was born in their hometown of Colorado Springs, Colorado. Performing at various venues across the Rocky Mountain region, The Sonflowerz quickly became noticed in the local music scene. The act's first album, You Remain and single, Crazy Love, were released in 2002. Their sophomore effort, Alive In You, was released in 2005.

This past summer, The Sonflowerz won first place in the Vocal Duo competition and later were judged Best Over-All Vocal Group at the 33rd annual GMA Music in the Rockies
